If you are still in High School playoffs...

It is a courtesy to high school coaches the North Texas Region has asked club programs to not require tryout attendance. Skyline will allow an athlete to tryout, however, provided they have a written note from their high school coach. If the athlete doesn't have a note, we nevertheless encourage him or her to attend tryouts, fill out the paper work, and assist the coaches in running tryouts.

If you are still in your Junior High season...

The above policy is a courtesy to the High School coaches to limit the chances of a high school athlete getting hurt and it affecting their schools chances in the State playoffs. You are allowed to tryout during your Middle School Season. If our tryouts directly conflict with one of your 7th or 8th grade team matches, please let us know in advance so we can try to come watch one of your previous matches.
